A dispatch to the "Albuquerque Citizen", from Prescott, under date of June 3d, states that fire in the Hackberry mine, in the Bigbug district, has destroyed the hoisting plant and resulted in the probable death of three miners. The hoist house was located directly over the shaft and when the fire occurred two men were at work in the mine and were completely shut off by the fire. Help was summoned from McCabe and Mayer, and the fire was extinguished. One man in an effort to go down the shaft fell two hundred feet, and is supposed to be dead. The rescuers are unable to go into the mine on account of the deadly fumes.
